

# 360° VIDEO REALITY PLATFORM SUITABLE FOR ALL YOUR TRAINING NEEDS

Do you still like to absorb boring and theoretical training courses? Edumersive is powerful e-learning platform for beginners and training experts to virtually create any interaction imaginable. Administer, create, train, assess, evaluate and analyze your custom training course in a user-friendly way.

## Create

Create simple and flexible work flow 360° training courses made for individual or group viewing, by enriching them with 2D videos, images, sounds, voice, points of interest and other (interactive) learning elements to bring realism and reality experience to your complete training portfolio.

## Train

Share your created training and immerse your participants facilitating their learning experience in their own working environment anytime, anywhere.

- **Learn** by practicing individually or in a group.
- **Experience** real-life situations online or offline.
- **Retain** knowledge in a practical sense.
- **Repeat** endlessly or time permitting.

## Evaluate

Training expert or instructor? Edumersive Analytics and Statistics assist you to trace and assess every individual participant and further evaluate and develop the training portfolio.

- **Assess** on any mobile device or PC.
- **Validate** participants by remote proctoring.
- **Export** the results easily to a Learning Management System (LMS) via SCORM or xAPI.

### VR TRAINING USAGE

70% of professionals believe that more businesses will use VR when training employees.

### KNOWLEDGE RETENTION

VR training increases knowledge retention by 75%.

### OPERATIONAL BENEFITS

82% of companies implementing VR indicate that efficiency, productivity, and safety benefits exceed expectations.

## 360° camera

Safety Training is 3D but is not always easy to create that safe 3D playground to experience, educate, train and exercise. By the use of a simple 360° camera, it now is! Create easily a virtual playground with a load of possibilities for 3D training and help your participants to re-gain the joy in training.

## Prerequisites Edumersive

A training handbook including pre-defined learning goals, and script for the intended virtual training course, combined with a healthy dose of enthusiasm!

Modernize and improve your training portfolio within your organization?
